What is a school board of trustees?

Every state and state-integrated school in New Zealand has a board of trustees.

Membership includes elected parent representatives, an elected staff representative and the principal.

What do trustees do?

The board is accountable for student progress and achievement to its parents and community.

They have the overall responsibility for the school. This includes legal obligations covering curriculum, property, personnel, finance and health and safety.

The board is the employer of all staff in the school, is responsible for setting the school's strategic direction in consultation with parents, staff and students, and ensuring that its school provides a safe environment and quality education for all its students.

Trustees are elected by the parent community by holding an election every three years and meetings are held once
